

THE ONE SURE WAY

to have money is to save it. The one sure way to save it is by depositing it in a responsible bank. You will then be exempt from the annoyance of having it burn holes in your pockets, and aside from the fact that your money will be safe from theft, the habit of saving tends to the establishment of thrift, economy, discipline and a general understanding of business principals essential to your success.

To those wishing to establish relations with a safe, strong bank, we heartily extend our services.
